Who: Carmela Dragomir, CEO of Delice International Company

What: Putting the national colours flag on the collar blouse chef, whether I am in the national team, in a regional team or I act as an independent competitor, I become, without the diplomacy school, the “sweet ambassador” of Romania gourmet!

Highlights: Carmela Dragomir was born in Câmpina and in 2010 declared that "I want to win the World Cup ... but I cannot alone ... it should be a nation ... so we will have a team ... "

Gastronomy World Championship: Master Carmela Dragomir succeeded to win the gold medal with a sugar creation "Beauty and the Beast" and a silver medal with another sugar creation "Alice in Wonderland"; and medals have their weight in tears...

Carmela background: She is recognized worldwide as a specialist in confectionery. He attended numerous specialization courses in Spain, France and Germany. She is the CEO of the Delice International Company.

Carmela philosophy: Everyone has his own imagination. Often, the inspiration comes from the clients themselves. Talking to a customer, you discover what he likes the most, what he thinks fits his taste. The idea is to be on the same wavelength with the client and you get your ideas from even his way of thinking.

Support: My family is proud of me. My daughter looks at me at the God. She and my husband cried with joy when I stepped on the Luxembourg podium.

Future: But now I have another desire. I'm thinking of opening a school where I can teach what I've learned throughout my life.
